

Wedding Photography Investment Guide

Hey!

First off, congratulations. If you're here, it means you're planning something big and beautiful, and you're on the hunt for the right person to capture it all.

Whether it's a dreamy coastal wedding or a wild Vegas elopement, I'm a big believer that your photographer shouldn't just show up, they should show up for you.

I'll be your hype woman, a chaos-tamer, and a storyteller who's all in on making your day unforgettable. Heart, humor, and mad camera skills included.

Booking with Me

First, we chat. I'll walk you through packages, timing, and how my hybrid shooting style blends classic posing with playful candids.

Next, you book. We lock in your date, you sign the contract, and drop the deposit.

Then the magic happens. From your very first message to the moment your gallery hits your inbox, I'll make sure the whole experience feels effortless.

Frequently Asked Questions

How long until I get my photos?

3-4 weeks on average. Express Editing is available for an added fee.

Do I need an engagement session?

No, but they're highly recommended! It allows us to meet and do a dress rehearsal before the big day.

How do I get my files?

Final edited files are given digitally via an online gallery. When they're ready, you'll receive access instructions to download or order prints.

Do I get RAW files?

Short answer? Nope. Think of RAW files like ingredients straight from the pantry; useful for me, not delicious for you. You get the finished art, not the half-baked bits.

How many photos will I get?

You can expect about 50 per hour of shooting. Rest assured, you'll receive every photo worthy of your big day—trust me, you don't want to store 800!
