

Wedding Photography Investment Guide

Hey!

Thanks for considering me to capture the big day and, most importantly, congratulations!

This guide gives you the basics of what to expect when working with me, but if you're a laid-back fun-seeker that isn't afraid to get a little messy, we're a great match. Sound good? Let's chat.

My Booking Process

Finding the right photographer is a bit like dating. In general, here's how that pans out.

1. Fill out my contact form on my website (nestandlove.com/contact). It's quick and easy, I promise.
2. Share jokes, obsessions and get to know each other. Example: I love tacos, margs & dogs.
3. Nail down your date and package. Then sign on the dotted line and pay deposit.
4. Plan, coordinate, answer questions & prepare for the big day.

Frequently Asked Questions

How long until I get my photos?

3-4 weeks on average. Rush Editing and Sneak Peeks are available for an added fee.

Do I need an engagement session?

No, but they're highly recommended! These give us an opportunity to meet and do a dress rehearsal before the big day.

How do I get my files?

Final edited files are provided digitally via an online proof gallery. When your photos are ready, you'll be sent access instructions and be able to download or order prints.

Do I get RAW files?

Short answer? No. As an anecdote, a photographer providing RAW files is like a chef serving undercooked food. It doesn't taste good and nobody is happy in the end.
